GARDEN CANOPIES

Are produced in three basic sizes

Vika 1	square 300 cm x 300 cm
Vika 2	hexagon of a diameter 400 cm
Vika 3	hexagon of a diameter 500 cm

Availability of producing any type of canopy per individual orders

All tent covers are sewn with expandable twine on wrapping machines made from water resistant material - certified.

Each canopy can be equipped with any number of sidewalls with windows or without secured to the canopy with Velcro.

The entire canopy is secured to the frame base with metal hooks and pinned to the base surface.

Basic Colors:

white, green, blue, yellow

or optionally matched per order..

The canopy frames The upper part of the frames is made out a 20 mm diameter pipe while the bottom out a 25 mm diameter pipe. Equipped with snaps to prevent sliding. It's secured to the base with the aid of 4 metal flanges with pin openings.

The frames do not have any plastic elements.
