TENT FRAMES

The canopy frames are manufactured out of a steel pipe, white powder coated, having a 1 mm wall thickness. Equipped with snaps to prevent sliding apart, connecting and restraining springs.

The corners of all frames are reinforced with a 6 mm thick wire.

Basic frame sizes of commercial tents:
square 200 cm x 200 cm
square 250 cm x 200 cm
square 300 cm x 300 cm
Basic frame sizes of garden canopies:
square 300 cm x 300 cm
hexagon of a diameter 400 cm
hexagon of a diameter 500 cm

We also make all other constructions aside from the standards per individual orders. The produced frames may also be made in a raised version with a height of 298 cm at its peak

The frames do not have any plastic elements.
